

The Daily Drinker

A visual guide to the recent changes we've made at TDDHQ

1

Quarterly Cases

Every three months, we introduce six new wines - three red and three white

2

Seasonal Wines

Our cases align with the seasons so you'll always be drinking appropriate wines

3

Eco-friendly Packaging

All 6 and 12 bottle boxes are 100% recycled and recyclable cardboard. Watch out for the #crashtest coming soon

4

Same Great Wines

Caspar tastes extensively to seek out our range of excellent, albeit less well-known, wines from all corners of the globe

5

Same Great Service

On the day of despatch we send an email containing links to Caspar's tasting notes; the courier sends a tracking email with delivery information

What's the impact?

SAVINGS

- Financial: fewer deliveries + less packaging = financial savings which are passed back to you with cheaper membership prices
- Environmental: reducing our delivery miles by thousands of miles a year means reducing our impact on the environment

EXTRAS

- Our online shop with a wide range of wines is open as normal
- Wine Club Members benefit from 10% discount off all wine purchases
- Parcels of wines too good to ignore but too small in size to be included in a seasonal cases
